The amount of resources Innovia throws at us whenever we have an issue is a breath of fresh air! You just do not get that kind of customer service most places!

Tim Freeman,
Director of BA and Operations at DOW Electronics

I don't think we could be where we are today without our partnership with Innovia. They've really taken the time to know our business and know what I expect to happen. It would terrify me to start with someone else and have to explain all that again. They care about the end result and customer satisfaction.
